

A NEW AIR. A BETTER AIR

UTO Duct 900 Air Purifier

UTO 900 is a cutting-edge, efficient air purification system, uniquely engineered for seamless integration into ducted air conditioning (Air Handler Units) or ventilation units

It utilizes cutting-edge photocatalytic technology that activates a TiO2 catalyst through broad-spectrum UV radiation. This generates natural oxidants that enable the degradation of volatile organic compounds (VOCs) and the inactivation of microorganisms such as **viruses, bacteria, yeasts, and molds**, up to **99.99%**.

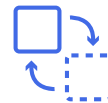

Quick Install Feature

Dynamic Purification Technology

Smart LED Indicator

Swap Tech:
2-Year Cells

Smart LED indicator

- 0-12 months (2 flashes/5 sec)
- 12-18 months (2 flashes/5 sec)
- 12-24 months (2 flashes/5 sec)
- Red Flashing: >24 months (constant)

Specifications	UTO 900
Air purification capacity	Up to 6.500 CFM
Input voltage	90-230 Vac (Self-regulating)
Power consumption	20 Watts
Frequency	50/60 Hz
Weight	0.2 lb
Optimal temperature range	2 - 70 oC

Not weatherproof

No trash disposal

Inside the box:

- Air purifier UTO
- Duct mounting plate
- Power cord - 6,5 ft (2 mts)
